[W. Warren Google Map Site Plan Reduced.pdf](#)

---

Good afternoon,

I am performing a HUD noise analysis for a site located at 1527-33 W. Warren Blvd & 1542-54 W. Madison St in Chicago, IL near Metra Union Pacific west Line (UP-W), Milwaukee District West Line (MD-W), Milwaukee District North Line (MDN), and North Central Service (NCS). A map is attached for reference. Please provide the following information for each Line in both directions:

- 1 · Number of trains per day passing by the site broken down by diesel or electric propulsion.
- 2 · The average number of diesel locomotives per train.
- 3 · The average number of railcars per train.
- 4 · The fraction of the daily train operations that occur at night (10 PM to 7 AM).
- 5 · The average train speed.
- 6 · Are the track sections welded or bolted?
- 7 · Are there any whistle stops at crossings in the immediate vicinity? Are horns used opposite the site?

Please feel free to contact me if you have questions or concerns.

Thank you,

**Kristen Kiluk**
